

## TECHNICAL BULLETIN

**TB NO.1000**  
**REV. 1**

### INTRODUCTION OF TECHNICAL BULLETINS

To keep our Distributors and Customers informed of any changes or problems that may exist in Superior Equipment, Product Bulletins and Technical Bulletins are published and mailed on a periodic basis.

If a new part is being introduced or if a design change has been made on a certain part, Product Bulletins are printed to inform the end user. If a chronic problem exists in a Superior Engine or compressor that has been resolved by or improved upon by **EnDyn** you are notified through printed Technical Bulletins. Recommended repair and critical installation procedures of certain parts are also defined in the Technical Bulletins.

For copies or reprints of any Technical Bulletins, please contact your local authorized **PowerParts**<sup>®</sup> Distributor or **EnDyn's** Technical Service Department direct.
