PB No.121

Rev. 0

SUBJECT: Design Improvements for Superior Engine Inspection Doors

PROBLEM: One piece, heavy cast iron inspection doors.

EnDyn now offers an improved inspection door that is light weight and allows easy access to the fuel injection valve. The new doors reduce risk of injury to maintenance personnel, decrease the amount of time required to perform routine maintenance, and eliminate environmental issues due to oil leaks.

The inspection doors are available for Superior Inline and Vee engine configurations.

<u>Engine Type</u>	<u>Quantity</u>	<u>Part Number</u>
6 cylinder engine	3 doors	P-034-750-A
8 cylinder engine	4 doors	P-034-750-A
12 cylinder engine	6 doors	P-034-753-A
16 cylinder engine	8 doors	P-034-753-A

Note: The above part numbers are complete assemblies, which include main door o-ring (P-033-681-001 or P-033-681-002), small windows (fuel injection valve access door), o-rings (P-CSA-337-12#367) and window hardware.

For further information, price and availability, please contact your local **PowerParts®** Distributor or **EnDyn's** Sales Department direct.
