

Parts and Service For
Ajax[®]
Engines & Compressors

parts

PowerParts® are backed by:

- **Responsive Customer Service**
EnDyn returns all calls, domestic and international, within 60 minutes and acknowledges all international faxes within 8 hours.
- **Superior Technical Expertise**
Training programs, engineering assistance and technical assistance are furnished at **No Charge** to EnDyn customers.
- **Proven Quality**
EnDyn's ISO 9002 Certification means stringent quality inspection of every PowerPart®.
- **Competitive Pricing**
All EnDyn pricing is based on actual cost rather than across the board price adjustments. Advanced volume purchases help to maintain costs from our vendors.
- **Industry Best 2-Year Warranty**
EnDyn's warranty policy exceeds any of those offered in the engine and compressor industry by two-fold.

Just like the Ajax®, PowerParts® run longer, better.

PowerParts®

PowerParts® is a registered trademark of Energy Dynamics, Inc. and all others are marks owned by their respective companies.

PowerParts® are available for a single part or the entire assembly.

Standard or customized kits are available based on individual needs.

Quality castings/forgings result in quality machined PowerParts®.

From beginning to end, our quality assurance program ensures a quality PowerPart® is delivered.

Complete Exchange Program

EnDyn offers a complete exchange program on all major components and assemblies. After receiving the exchange **PowerPart®**, the customer ships the core to our Alice, Texas facility.

The advantages of this program include:

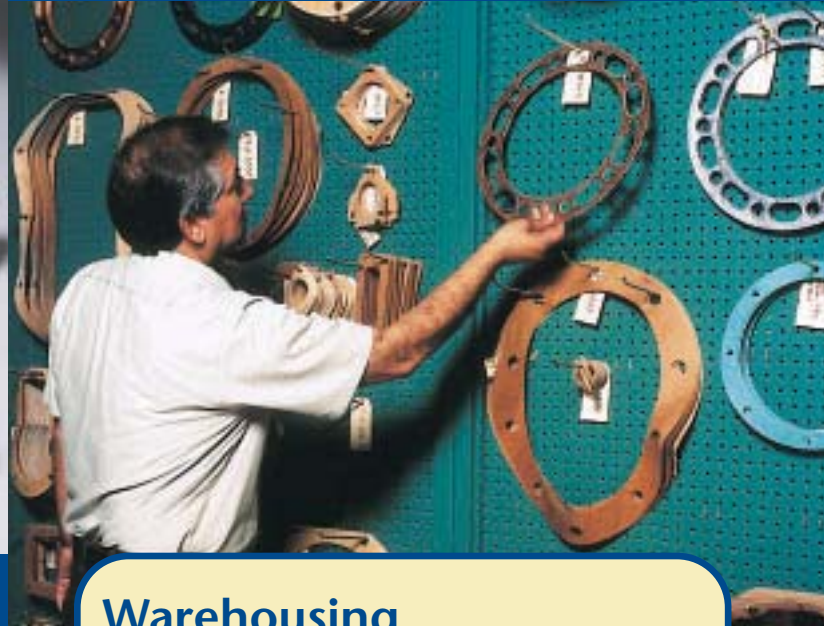

- Reduced costs - over 60% compared to new
- Shorter down-time and quick turn-around
- Remanufactured to new part specifications
- 1-Year no-nonsense warranty on all units, assemblies and repair and returns

warehousing
/inventory

EnDyn - The one source for all your gasket needs.

From pistons to packing all compressor needs are met with one phone call.

Endyn stocks over \$2 million in Ajax® parts for off the shelf delivery.

Warehousing

- **Complete Inventory**

EnDyn's multi-million dollar inventory is supported by a customized computer system insuring product availability.

- **No Extra Charges**

Emergency orders are handled immediately without any extra expediting charges - 24 hours/day coverage.

- **Off-the-Shelf Delivery**

PowerParts® are shipped from a modern machining, warehouse, and service facility dedicated to complete coverage of Ajax® equipment.

- **Quality Parts Care**

Extensive preservation and export crating are everyday occurrences at EnDyn. Do not hesitate to request special shipping needs.

PowerParts®

service

Quality service is as important as quality parts at EnDyn.

Service

- **Shop or Field Technical Assistance and Overhauls** are some of the many services offered by EnDyn and its worldwide network of genuine PowerParts® Distributors.
- **Customized Parts Kits** contain all the needed PowerParts® in one convenient package from small repairs to complete overhauls. You choose which parts are included.
- **Quarterly Product, Technical and Training Bulletins** keep you informed of the latest advancements for your equipment. Contact our website (<http://www.endyn.com>) for a complete listing.
- **Our Alice, Texas Facility** is “the world’s only facility for sales, service, and manufacturing of quality PowerParts® for Ajax® engines and compressors in one location.”

Zero hour overhaul complete with “new unit” warranty of one year.

Quality Control; ISO 9002 certification means stringent quality inspection of every PowerPart®.

From the EA-22 to the DPC 800, EnDyn is your one-stop shop for total Ajax® engine and compressor parts and service needs.
